WIZARD 330
Nasal Pillow

Easy and free for daily OSA therapy

Positive airway therapy can improve sleep quality and reduce daytime sleepiness in individuals with sleep-disordered breathing in as little as two weeks. Factors like minimizing breathing obstructions, enhancing mask comfort, and reducing risks such as pressure sores and air leakage can greatly impact therapy compliance. [1,2]

The WiZARD 330 features 3D headgear stability and an ergonomic nostril fit cushion, offering optimal comfort with a human-centric design. Its lift-up feature reduces upper lip pressure, enhancing overall comfort. The patented side frame adds stability, while the 3D-shaped headgear ensures adaptability, making it ideal for active sleepers. The mask's forehead-free design ensures an unobstructed field of vision, reduces claustrophobia, and promotes uninterrupted sleep. Its elastic headband makes it easy to wear in just three steps, and the one-handed takeoff feature adds to its convenience.

Stability
The patented side frame structure enhances stability for users who frequently change positions while sleeping.

Easy to wear and one-hand take off
Its elastic headband makes it easy to wear in just three steps, and the one-handed takeoff feature adds to its convenience.

Ultra Comfort, Ease of use, Customized Fit for Sleep Disorder Breathing Therapy

Patented side frame structure
Soft and flexible side frames are gentle on face and cheekbones to increase stability.

Elastic 3D-sculpted headgear
Providing high adaptability and stability, while being suitable for every head shape.

Optimal nostril design
Human factor design on the nasal pillow to fit in nostril with best angle.

Headband with Velcro
Headgear with hook-and-loop fastener for adjustable tightness.

Short Tubing
Provides improved freedom of movement during sleep.

Includes three cushion sizes for any patient.

Logo facing up
Ensuring the device is always worn correctly, even during nighttime use.

Conformable
Crafted with an ideal angle for a comfortable fit in the nostrils without applying pressure to the upper lip, while ensuring optimal coverage.

Easy to assemble
The cushion features a foolproof mechanism and is composed of three pieces. Assembly and disassembly are straightforward and simple.
